## Profile

---

Frontend developer with hands-on experience in **Svelte** and **Next.js**, complemented by knowledge of mobile development tools like **React Native (Expo)**. I also have experience with backend technologies and databases, along with familiarity in Linux and DevOps practices. I'm enthusiastic about my development environment and tools, and always eager to learn new technologies while continuously expanding my skill set. I focus on building responsive, user-focused web applications, with a solid understanding of modern development workflows and cross-platform software solutions.

## Skills

---

**React.js**, **Svelte** (SvelteKit), **Next.js**, **State management** (Redux, Recoil, Zustand, Jotai, etc.), **Web Animations** (GSAP, Framer Motion), **Typescript**, **Git** (Github), **CSS** (SCSS, Tailwind, Bootstrap), **Databases** (MongoDB), **Node.js** (Express, Fastify.), **Figma**, **React Native** (Expo)

## Professional Experience

---

2025/04 – Present  
Cairo, Egypt

### Senior Frontend Developer

*Beetleware* [🔗](#)

**Responsible for the full frontend development of Soumtech** [🔗](#), a modern auction platform built with **SvelteKit**, delivering real-time bidding and a responsive user experience, while ensuring **accessibility, performance optimization, and adherence to best practices** across the application.

2024/08 – 2025/04

### Frontend Developer

*Arabiapixel*

Serving as the **lead frontend developer**, I've built and optimized a wide range of websites with React, Next.js, and SvelteKit—focusing on scalability, performance, and user experience.

2024/01 – 2024/12  
Remotely

### React Developer

*Elzero Team*

Worked as a Frontend Developer within a collaborative team, contributing to **a wide range of projects**—from websites to cross-platform mobile applications—leveraging React and React Native to deliver user-focused, high-quality solutions.

2023/08 – 2024/01  
Remotely

### Frontend Developer

*Nami Software Solutions* [🔗](#)

Contributed to the development of **Nuaris** [🔗](#), a yacht services application based in Saudi Arabia. My role involved establishing the foundational architecture of the project and creating a **team-wide code of conduct** to ensure consistent collaboration and professional standards across the company.

2023/04 – 2023/08  
Cairo, Egypt

### Frontend Developer

*Dr. Code* [🔗](#)

Worked as a Frontend Developer focusing on **Next.js** in building and maintaining functional and responsive websites and applications

2022 – present  
Freelancer

## MERN Stack Developer

*Upwork*

Since i got my first job on upwork, and im focusing on delivering high quality, best practice and reusable code. with the best possible output.

## Latest Projects

---

2025/04 – Present

### Soumtech

*Modern Auction Platform*

Soumtech is a next-generation auction website designed to deliver a fast, reliable, and user-friendly bidding experience. I was **responsible for the complete frontend development**, building the platform with **SvelteKit** and ensuring smooth integration with backend services.

Key contributions include:

- Implemented **real-time bidding features** for a dynamic and responsive auction experience.
- Designed and developed a **fully responsive UI** optimized for both desktop and mobile devices.
- Ensured **accessibility compliance** and inclusive design practices.
- Focused on **performance optimization**, reducing load times and improving scalability.
- Advocated for best practices in **modern workflows, CI/CD, and DevOps alignment**.

2025/01 – 2025/08

### Arabic4U

*Arabic Learning Platform*

**Developed and maintained Arabic4U**, an educational platform for learning Arabic.

Empowering non-Arabic Students to master the Arabic language with modern, interactive, and engaging lessons. focusing on **responsive UI, smooth user experience, and cross-platform accessibility** across web and mobile.

- Developed **interactive lessons** with structured content to support step-by-step Arabic learning.
- Implemented **voice recording and playback features** to help learners practice pronunciation.
- Built **progress tracking** and achievement indicators to keep learners motivated.
- Ensured **smooth performance and accessibility** for a wide range of users.

2023/08 – 2024/01

### Nuaris

*Yacht services application*

**Nuaris is a yacht services platform in Saudi Arabia**, offering vessel sales, insurance, and management solutions through a modern, user-friendly web application.

- **Architected the project structure**, setting a scalable foundation for future development.
- **Drafted the team's code of conduct**, promoting clean collaboration and strong professional standards.
